MPG (combined)	41.5
CO2	159 g/km
Emissions	Euro 6
ULEZ	Compliant

DESCRIPTION

This 2016 Ford Focus ST-3 offers a practical balance of performance and reliability, having covered just 59,000 miles since it was first registered. This petrol model features a 2.0L engine that meets Euro 6 emission standards, making it a sensible choice for modern driving requirements. Inside, the cabin is equipped with dual zone electronic automatic temperature control, including climate control, to ensure comfort for all passengers. Connectivity is straightforward thanks to the integrated Bluetooth handsfree phone system, while the KeyFree system allows for convenient keyless entry. Practicality is further enhanced by rear parking sensors to assist with manoeuvring, and visibility is improved by the inclusion of Bi-Xenon headlights.

The performance capabilities of this vehicle set it apart from standard models, as it is capable of accelerating from 0 to 62mph in just 6.5 seconds. This impressive acceleration provides a responsive driving experience that is often sought after in the hot hatch segment. By combining this level of power with the convenience of modern technology and a relatively low mileage for its age, this Focus ST-3 provides a well-rounded package for those who appreciate a more engaging drive without compromising on daily usability.
