DESCRIPTION

This 2018 Volkswagen Golf TSI R is a well-maintained example of a high-performance hatchback, having had only two owners from new. It is powered by a 2.0-litre petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. The vehicle features a four-wheel drive system, which provides consistent grip and stability across a variety of road conditions.

The performance of this model is notable, capable of accelerating from 0 to 60mph in just 4.4 seconds, offering a responsive driving experience. Practicality is also a key strength, as the vehicle includes a large boot space suitable for everyday needs. Comfort and convenience are enhanced by climate control and a Composition Media System with Bluetooth connectivity. For added ease during parking, the car is equipped with front and rear parking sensors. Visibility is improved by LED headlights that include dynamic curve lighting, while the interior feels more open and airy thanks to the opening panoramic sunroof.
