DESCRIPTION

The 2018 Volkswagen Tiguan TDI R-Line is a well-equipped SUV that combines practical design with a refined driving experience. This model is powered by a 2.0-litre diesel engine, which meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. Inside, the cabin features Vienna leather sports seats in a black and crystal grey finish, providing a comfortable environment for all passengers. The interior is further enhanced by heated front seats and heated outer rear seats, ensuring warmth during colder journeys. Visibility is supported by LED headlights with dynamic light assist, while the panoramic opening sunroof adds a sense of space and light to the cabin.

This vehicle offers several practical advantages that make it a sensible choice for daily use. It features a large boot space, providing ample room for luggage, shopping, or equipment, which is ideal for families or those with active lifestyles. The Tiguan is also notable for its low CO2 emissions and falls into a low insurance group, which helps to manage ongoing running costs more effectively compared to many other vehicles in its class. These attributes combine to create a balanced and efficient SUV that prioritises both passenger comfort and long-term affordability.
